

Sahisnu Adhikari

Houston, Texas | +1 713-320-4822 | sahisnu.adhikari@gmail.com

EDUCATION

Carnegie Vanguard High School

2029

- GPA: 4.625, Class Rank: None

Code2College Participant

2026 - Current

TECHNICAL SKILLS

Computer Programs: VS Code, Roblox Studio

Programming Languages: Python, HTML, CSS, Lua

Spoken Languages: English, Telegu, Spanish

PROFESSIONAL & TECHNICAL EXPERIENCE

Science & Engineering Fair of Houston

2024 - Current

Presenter

- Presented an independent STEM research project to judges, explaining the project purpose, process, data, and results.
- Communicated technical ideas clearly while answering questions and receiving feedback from science and engineering professionals.
- Developed a convolutional neural network model using Tensorflow to analyze kidney CT scans and identify possible tumor patterns.

Rice Young Scholars Invent

2026 - 2026

Student

- Designed and tested an original experiment while learning the research process, including observation, data collection, and revision.
- Worked through setbacks by analyzing results, improving the project design, and using feedback to strengthen the final outcome
- Built a pulse-monitoring website that analyzed heart rate data to help identify possible signs of heart disease risk.

MIT BWSI Spring Workshop

2026 - 2026

Student

- Learned the basic physics of flight, including lift, drag, thrust, weight, and how airplane design affects movement.
- Designed and built gliders using different materials, then tested and adjusted them to improve distance, stability, and performance.

Code2College

2026 - Current

Software Development Essentials

- 9 week web programming course including basic and advanced Python concepts
- Developed several technical projects in Python using intermediate concepts
- Attended professional development workshops to improve time management, professional skills, and technical portfolio development

Saving the Seas Fellowship

Writer

- Wrote an op ed about how Houston must strengthen air-quality protections and give Ship Channel communities a direct voice because no family should bear the health costs of the city's industrial growth.

LEADERSHIP & COMMUNITY SERVICE EXPERIENCE

Junior Achievement Club

2025 - Current

Shadow Officer

- Managed and updated the club's online presence to share events, announcements, and student opportunities.
- Helped organize digital materials and improve communication between club officers, members, and the school community.

Mayors Youth Council

2025 - Current

At-Large for District G

- Represented student voices by discussing community issues and helping develop ideas to improve Houston neighborhoods.
- Worked with other youth leaders on civic projects focused on education, equity, public safety, and community improvement.
